### ***Mission Statement***

We accept all students **as they are** and believe that every one of them is **entitled** to the very **best education**, delivered in an **environment** that is **supportive, caring** and **safe**.

Our goal is to develop our students to become:

- **Successful** Learners.
- As **independent** as possible.
- **Confident** individuals and self-advocates.
- **Effective** communicators and **contributors**.
- **Responsible** citizens.

We will do this by working to **ensure we get every aspect of their provision just right**, helping them to achieve academically, personally, socially and morally.

### ***Rights Respecting Schools***

The Unicef UK Rights Respecting School Award (RRSA) is based on principles of equality, dignity, respect, non-discrimination and participation. The RRSA seeks to put the UN Convention on the Rights of the Child at the heart of a school's ethos and culture to improve well-being and develop every child's talents and abilities to their full potential. A Rights Respecting School is a community where children's rights are learned, taught, practised, respected, protected and promoted.

Stone Bay has achieved the Silver Award and is recognised as a Rights Committed School.

## *Statement of Intent:*

The Headteacher and Governors are committed to establishing and implementing arrangements that will ensure:

- Visits and activities are planned to ensure the safety of pupils, staff and volunteer helpers - including appropriate risk management and assessment that is specific to the needs of the group, the planned activity and the location and environment. This includes any significant risk assessment information being communicated with those attending the visit as appropriate.
- The management of overall visit and activity planning, risk assessment and the visit approval process is carried out by a competent staff member with appropriate experience and training; an educational Visits Coordinator (EVC) will be nominated in each school or establishment to carry out this role and they will attend an EVC training course, and an EVC update course every 3 years. This role can be retained by the Headteacher / Manager or delegated to an appropriate staff member.
- The Governing Body has designated a Governor with direct responsible for oversight and monitoring of Outdoor Learning and Educational Visits; this could be incorporated into existing Governor's Health and Safety responsibilities, or form a new role.
- Visits and activities are planned with clear educational aims and objectives, based on pupils' needs and abilities, to support high quality learning outcomes.
- Visits and activities are planned and led by competent members of school or establishment staff, with appropriate qualifications and experience as required by the activities.
- Appropriate technical expertise is sought in relation to the planning and management of more hazardous or adventurous activities, including the verification of activity leader qualifications, safe activity management, appropriate ratios, etc.
- External providers used to provide services and support, have been appropriately checked to ensure they are suitable for use on educational visits e.g. meeting nationally accepted standards and legal adventurous activity requirements (e.g. Adventurous Activities Licence), have appropriate financial protections in place (e.g. ATOL), etc as appropriate; and hold an appropriate level of Public Liability Insurance for the activities or services provided.
- Appropriate emergency and serious incident procedures are in place to manage accidents, incidents and safeguarding issues, and visit information can be easily accessed by all those who need it in an emergency situation (this may be overnight, at weekend or during holiday periods). All staff and volunteers involved with visits receive appropriate training and briefings on dealing with emergencies.
- Information and documents relating to educational visits are appropriately stored and retained, in line with data protection and document retention requirements, to support incident management and potential investigations / court proceedings after serious incidents and accidents.
- All school and establishment staff are appropriately trained for their roles in leading and accompanying educational visits and activities.
- All visits and activities have been formally approved by the Headteacher or Educational Visits Coordinator (EVC) on their behalf. Approval systems should be clearly evidenced, and involve school Governors as appropriate.

- Informed activity and medical consent has been obtained from parents / guardians as appropriate for the type of visit or activity, and that parents / guardians are given enough information to be 'fully informed' about all educational visit activity plans if specific written consent has not been gained.
- Full medical information and details of other issues such as behaviour, special needs, dietary requirements, etc have been obtained from parents and are available to visit leaders and accompanying school or establishment staff. These should be shared with provider staff where appropriate.
- Appropriate monitoring and evaluation of visits and activities takes place, to ensure quality and safety.

## Appendix 1

### Additional Information

Schools are not required to obtain written consent from parents for pupils to take part in off-site activities that take place during school hours

For those that take place outside school hours, a one-off consent form can to be signed by the parent(s) (or those with parental authority) on enrolment of their child in a school where the types of visits and activities are part of the programme/curriculum and routinely organised by the establishment and are stated in documents issued to parents when pupils move to Yr 7. This may be stated in your prospectus or similar documents.

It remains good practice to inform parents that a visit or activity is to take place (and this may be a useful opportunity to remind them if they have given consent, and to give them an opportunity to withdraw it). Residential visits, adventurous activities or activities for which a charge is made will need specific informed consent, including agreement to any payment or cancellation terms.

form that DfE prepared a couple of years ago for “establishments to adopt and adapt as appropriate”.

### Introduction

This document provides maintained schools with the guidance needed to put in place a Policy Statement for Outdoor Learning and Educational Visits. It contains a model policy for Governing Bodies to consider, amend and adopt as necessary. The value of outdoor learning and educational visits are widely recognised as an important tool for supporting the education and development of

children and young people, providing direct curriculum-linked activities to improve learning, skills, understanding and activity opportunities to enhance PE and extra-curricular activities. They also provide a wide range of personal development opportunities to support the development of real-life skills.

“Learning outside the classroom contributed significantly to raising standards and improving pupils’ personal, social and emotional development.”

Ofsted – Learning Outside of the Classroom report

<http://www.lotc.org.uk/wp-content/uploads/2010/12/Ofsted-Report-Oct-2008.pdf>

S:\Outdoor Education Unit\Charging Maintained Schools (2017)\Framework And Policy For KCC Maintained

Schools\20170706Outdoor\_Learning\_And\_Ed\_Visits\_Policy\_For\_Mainatined\_Schools FINAL.Docx

KCC strongly believes in the benefits of well planned, high quality outdoor learning and educational visits and encourages schools to provide opportunities for all pupils to experience visits and outdoor activities using a range of environments, geographical, cultural and historical sites and activities to support their curriculum.

Scheme of Delegation for the Management of Educational Visits and  
Outdoor Learning Activities

KCC delegates the responsibility for the safe planning and management of outdoor learning and educational visits, including residential and adventurous / more hazardous activities, to the Governing

Bodies of maintained schools and Management Committees of Pupil Referral Units.

From 1 September 2017 all maintained schools and establishments will be responsible for approving their own educational visits and activities, including residential and adventurous activities. Schools and establishments must ensure that they have clear and robust systems, policies and procedures in place for the planning, safe management and monitoring of educational visits and activities.

KCC provides all schools with a Kent Framework for Safe Practice on Educational Visits and Outdoor Learning Activities to support and guide schools in the safe planning and management of outdoor learning activities and educational visits. The Kent Framework for Safe Practice on Educational Visits and Outdoor Learning Activities can be found here:

<http://www.kelsi.org.uk/Curriculum/outdoor-education>

KCC also provides maintained schools with a model policy to consider adapt and adopt. The model

is included in this document.

#### Access to Advice, Guidance, Training and Support

Schools and establishments must ensure that their staff members have access to appropriate advice, guidance and training to support their role in planning and managing visits and activities.

KCC enables schools to access appropriate advice and guidance by purchasing service and support packages from the Outdoor Education Advisory Service. Those that do will have direct access to professional outdoor learning and educational visits support, guidance and technical advice.

Maintained schools not purchasing an Outdoor Education Advisory Service support package will need to make their own arrangements for access to professional technical advice and guidance to support their staff.

Training for all schools and establishments is available from the Outdoor Education Advisory Service, including INSET and bespoke training, across a wide range of outdoor learning and educational visit areas - from visit management to practical outdoor learning skills and leadership qualifications.

Contact the Outdoor Education Advisory Service for further information on service packages, support and training – [outdoor.education@kent.gov.uk](mailto:outdoor.education@kent.gov.uk) or 03000 410 901.

#### Health and Safety Responsibilities

The scheme of delegation for Outdoor Learning and Educational Visits transfers the day to day responsibility for the safe management of outdoor learning activities and educational visits to the Governing Bodies of maintained schools and the Management Committees of Pupil Referral Units. KCC retains its legal health and safety responsibilities under the Health and Safety at Work Act as the ultimate employer of staff in Community and Voluntary-Controlled schools and Pupil Referral Units. Through the scheme of delegation the Governing Bodies/Management Committees act as the employer in the first instance.

For Foundation and Voluntary-Aided schools, the employer is the Governing Body, and they retain their responsibility for ensuring the safe planning and management of Outdoor Learning and Educational Visits.

S:\Outdoor Education Unit\Charging Maintained Schools (2017)\Framework And Policy For KCC Maintained

Schools\20170706Outdoor\_Learning\_And\_Ed\_Visits\_Policy\_For\_Mainatined\_Schools FINAL.Docx

The change in delegation of the management of the health and safety of school educational visits brings this area in line with KCC's general approach to the management of health and safety in schools.

This Guidance Note and Model Policy Statement for Educational Visits and Outdoor Learning forms an

extension to the main KCC Health and Safety Policy for Schools. The policy can be found here -

[http://www.kelsi.org.uk/\\_data/assets/word\\_doc/0010/41779/health-and-safety-policy-for-school.docx](http://www.kelsi.org.uk/_data/assets/word_doc/0010/41779/health-and-safety-policy-for-school.docx)

The principals of the KCC Health and Safety Policy for Schools apply to the safe practice and management of educational visits and outdoor learning activities, and this policy statement should be

managed and implemented in conjunction with it.

All maintained schools and establishments are required to adopt a policy statement on Outdoor Learning and Educational Visits.

Schools and establishments can meet the policy statement requirements either – through the purchase of an Outdoor Education Advisory Service SLA (Package A or B) or through their own school or establishment's own internal policy and procedures.

#### Monitoring

KCC will monitor, on an annual basis, compliance with the scheme of delegation and adherence to the Kent Framework for Safe Practice on Educational Visits and Outdoor Learning Activities.

For schools purchasing a service and support package (A or B) from the Outdoor Education Advisory Service, visits and activity compliance will be monitored through the EVOLVE online educational visits system and advisory support included with the SLA. These schools are not required to submit annual audit information.

Maintained schools not purchasing a service and support package (A or B) from the Outdoor Education Advisory Service will be required to submit a yearly Outdoor Learning and Educational Visits Audit.

Individual visit / activity planning and management may also be 'sample' monitored or directly
